Modification Proposal 256: Amendment to the Network Entry Agreement at St Fergus SAGE Terminal

Dear John,

RWE npower supports the above Modification Proposal.

We agree that bringing the Network Entry Agreement of the SAGE sub terminal at St Fergus into line with the GSMR lower and upper Wobbe limits is appropriate and has the potential to increase the volume of UKCS gas that could be brought to market, thus enhancing the security of domestic customer supply and potentially enhancing competition.

We are reassured by National Grid NTS's view¹ that it does not expect any measurable impact on CV shrinkage if this Modification Proposal were to be implemented.

Yours sincerely,

Steve Rose*
