Dear John,

**Modification Proposal 0256:  
Amendment to the Network Entry Agreement at St Fergus SAGE Terminal**

Thank you for giving ScottishPower (SP) the opportunity to respond to the above Modification. SP supports Modification Proposal 0256.

SP considers that implementation of this change would bring the arrangements at St Fergus into line with specifications for other UK terminals, without any increased risk of CV shrinkage, thereby creating greater scope to bring increased supplies ashore.

This should be beneficial from a security of supply perspective and should better facilitate the relevant objective of securing effective competition between shippers.

Should you have any queries on the above then please do not hesitate to contact me.

Yours Sincerely,

Gerry Hoggan
