Re: UNC Modification Proposals 0281:
'Introduction of an Implementation timeframe for Modification Proposals'

Dear Bob

Thank you for your invitation seeking representations with respect to the above Modification Proposal. We note that the Proposal has been raised to seek to deliver relevant elements of the Code Governance Review Final Proposals and accordingly support implementation as we agree with the proposer that there would be a marginal benefit to the facilitation of the relevant objectives.

Specifically, we agree that there would be a marginal benefit to the promotion of efficiency in the implementation and administration of the Code. This would be achieved by enabling a Proposer to incorporate a structured range of implementation dates within a Proposal. Whilst the prevailing arrangements do not expressly prevent this (such details are able to be incorporated in other areas of the Proposal and Modification Report), this Proposal may prompt a greater consideration of the implications of respective implementation timeframes.

Please contact me on 01926 653541 (chris.warner@uk.ngrid.com) should you require any further information.

Yours sincerely,

Chris Warner
