Response to Proposed UNC Modification 0324V: "Code Governance Review: Significant Code Reviews"

Dear Tim,

First Utility supports the above Proposed UNC Modification.

In the past, it would appear that Ofgem has shaped the UNC by placing licence conditions upon transporters who are then required to raise UNC modifications in order to comply with these. The proposed Significant Code Review process should remove the need for this rather cumbersome procedure and we believe that the implementation of this Modification will provide greater transparency to the UNC Modification process.

Please do not hesitate to contact me if you have any questions or would like any further information.

Regards,

Chris Hill
