Dear Bob

Modification Proposals: 0319V, 0322V, 0323V, 0324V and 0325V

Thank you for providing Scotia Gas Networks (SGN) with the opportunity to respond to Modification Proposals 0319V, 0322V, 0323V, and 0325V which have been raised to facilitate the Gas Transporter Code Governance Licence changes within the UNC. SGN supports the implementation of these varied UNC Modification Proposals which, as a result of additional legal text changes were required to be further consulted upon. In relation to these changes SGN continues to offer support for their implementation as detailed in our previous response.

In relation to UNC Modification Proposal 0324V 'Code Governance Review – Significant Code Reviews' SGN supports the implementation of this Modification Proposal which would, upon implementation, provide the required framework within the UNC to facilitate the required changes in line with the GT's Licence change. SGN agrees with the Proposer regarding the better facilitation of the achievement of the relevant objectives detailed in the Modification Proposal.

We hope you find these comments helpful.

Yours sincerely

Joel Martin
