0349: Introduction of a Force Majeure Capacity Management Arrangement

Thank you for the opportunity to comment on this Draft Modification Report. Total E&P UK Ltd supports the implementation of this code change; we agree with the proposer that introduction of specific rules will give certainty to Entry Users and ensure that the costs of making payments under the Force Majeure Option Arrangement are apportioned between both Users and National Grid NTS.

We hope these comments are helpful to the Panel in reaching its recommendation.

Yours sincerely

(by email)

Iain McCombie
Commercial Operations Manager
