Draft Modification Report

Modification 0386 - Extending rights to Protected Information provisions for Meter Asset Managers / Registered Metering Applicants – unpopulated MAM id records

Consultation close out date: 2nd September 2011

Do you support or oppose implementation?

SUPPORT

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

GMT&R believe the proposed modification addresses a specific area when a MAM ID has not been populated and allows a MAM who believes they are the relevant MAM for that MPRN to establish the relevant Registered System User. The improved population of MAM ID will also aid a more efficient Change of Supplier (CoS) process as it will avoid the problems which occur when a new Supplier is not provided with a current MAM ID.

This modification would, with sufficient controls in place, permit the release of the supplier id, meter serial number and meter model by the Transporter to a requesting MAM and hopefully reduce the number of MPRN's without an associated MAM ID

Are there any new or additional issues that you believe should be recorded in the Modification Report?
