Draft Modification Report

0386 – Extending rights to Protected Information provisions for Meter Asset Managers / Registered Metering Applicants – unpopulated MAM id records

Consultation close out date: 02 September 2011

Respond to: enquiries@gasgovernance.co.uk

Organisation: **ScottishPower Energy Management Ltd**

Representative: David McCrone

Date of Representation: 18 August 2011

Do you support or oppose implementation?

Support

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

The issue of unpopulated MAM IDs has caused problems for industry participants for some time and continues to do so. This proposal, along with other ongoing pieces of work, provides an opportunity to reduce the number of unpopulated MAM IDs held on xoserve's records and should therefore help alleviate some of these problems.

Are there any new or additional issues that you believe should be recorded in the Modification Report?

No.

Self Governance Statement:

Do you agree with the Modification Panel's decision that this should be a self-governance modification?

Yes.

Relevant Objectives:

How would implementation of this modification impact the relevant objectives?

0386

The modification better facilitates Relevant Objective (d). Implementation will help to reduce instances where the MAM ID is unpopulated. Identification and population of this information results in further administration and costs which will be avoided. This is especially pertinent around the change of supply and MAM appointment processes.

Impacts and Costs:

What analysis, development and ongoing costs would you face if this modification were implemented?

None.

Implementation:

What lead-time would you wish to see prior to this modification being implemented, and why?

We are supportive of the timescale set out in the modification.

Legal Text:

Are you satisfied that the legal text will deliver the intent of the modification?

Yes.

Is there anything further you wish to be taken into account?

Please provide any additional comments, supporting analysis, or other information that that you believe should be taken into account or you wish to emphasise.

No.
