### Draft Modification Report

#### 0389: Simplification of Points of Telemetry

**Consultation close out date:** 16 November 2011  
**Respond to:** enquiries@gasgovernance.co.uk  
**Organisation:** National Grid Transmission  
**Representative:** Dave Corby  
**Date of Representation:** 10 November 2011

#### Do you support or oppose implementation?

Support

#### Please summarise (in one paragraph) the key reason(s) for your support/opposition.

This modification has been raised by National Grid Transmission (NGT) to clarify the UNC, OAD Section E Annex E-1 and bring it into line with existing operational practice. This modification does not propose to change the operation of the UNC in any manner, nor will it have any impact on any party to the UNC. This proposal will however ensure that the UNC accurately reflects the industry operations and therefore enhances understanding and facilitates efficiency in future code administration which meets relative objective F.

#### Are there any new or additional issues that you believe should be recorded in the Modification Report?

No

#### Self Governance Statement:

*Do you agree with the Modification Panel's decision that this should be a self-governance modification?*

Yes

#### Relevant Objectives:

*How would implementation of this modification impact the relevant objectives?*

This modification supports Relevant Objective B: Coordinated, efficient and economic operation of the combined pipe-line system.

The rationalisation of the points of telemetry data items required to be transferred across the interface between DNCS and National Grid Transmission's systems to meet operational requirements increases the efficiency of the coordination between the DNs' systems and the National Transmission System.

As stated earlier the proposal also facilitates relevant objective F: Promotion of efficiency in the implementation and administration of the Code.

**Impacts and Costs:**

*What analysis, development and ongoing costs would you face if this modification were implemented?*

None

**Implementation:**

*What lead-time would you wish to see prior to this modification being implemented, and why?*

No lead time is necessary as no systems implementation is required.

**Legal Text:**

*Are you satisfied that the legal text will deliver the intent of the modification?*

Yes

**Is there anything further you wish to be taken into account?**

*Please provide any additional comments, supporting analysis, or other information that that you believe should be taken into account or you wish to emphasise.*

No
