Do you support or oppose implementation?

Support/Qualified Support/Neutral/Not in Support/Comments* *delete as appropriate*

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

The modification will remove the discrimination between those GDN's having Large Sites in their portfolio, which give rise to large variation in the hourly consumption, and those GDN's that don't.

This will facilitate a more competitive environment hence fairer and lower prices on Ancillary Services for Power when CCGT's located in LDZ's can compete on more equal footing with CCGT's directly connected to NTS.

Are there any new or additional issues that you believe should be recorded in the Modification Report?
