Do you support or oppose implementation?

Support

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

The proposal will provide Users with a greater, although not guaranteed, opportunity to successfully apply for Annual NTS Exit (Flat) Capacity and will remove a potential discrimination against single-User Exit Points. We strongly encourage implementation prior to July 2012 so that the potential benefits of the modification can be made available to Users during the next capacity application window.

Are there any new or additional issues that you believe should be recorded in the Modification Report?

There are no new issues we wish to add.

Relevant Objectives:

How would implementation of this modification impact the relevant objectives?

We agree with the proposer's view of the relevant objectives which are better facilitated by this proposal, and the extent to which they are better facilitated.

Impacts and Costs:

What analysis, development and ongoing costs would you face if this modification were implemented?

None beyond those already identified.

Implementation:

What lead-time would you wish to see prior to this modification being implemented, and why?

As noted above, we would wish to see this proposal implemented as soon as possible in order to allow Users the maximum time to plan their exit capacity bookings ahead of the next application window.

Legal Text:

Are you satisfied that the legal text will deliver the intent of the modification?

Yes.

Is there anything further you wish to be taken into account?

Please provide any additional comments, supporting analysis, or other information that that you believe should be taken into account or you wish to emphasise.

No.
