Draft Modification Report

0414S: Discontinuation of ANS usage for Interruption Communications by Transporters

Consultation close out date: 11 June 2012

Respond to: enquiries@gasgovernance.co.uk

Organisation: **National Grid Transmission**

Representative: Dennis Rachwal

Date of Representation: 8 June 2012

Do you support or oppose implementation?

Neutral

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

We note that the scope explicitly excludes the use of ANS for communications between National Grid Transmission and Users so we can continue to rely on UNC provisions for this. We are however neutral as to whether there are beneficial cost savings that can be realised for a process that we are not involved in.

Are there any new or additional issues that you believe should be recorded in the Modification Report?

No

Self Governance Statement:

We agree with the Modification Panel's decision that this should be a self-governance modification.

Relevant Objectives:

No comment.

Impacts and Costs:

We believe National Grid Transmission would not be directly impacted by implementation of this Modification.

Implementation:

No comment.

Legal Text:

Are you satisfied that the legal text will deliver the intent of the modification?

Yes

Is there anything further you wish to be taken into account?

Please provide any additional comments, supporting analysis, or other information that that you believe should be taken into account or you wish to emphasise.

No
