

Mr Bob Fletcher
Secretary, Modification Panel
Joint Office of Gas Transporters
51 Homer Road
Solihull
B91 3LT

12th June 2012

Dear Bob

RE: UNC Modification 0414S Discontinuation of ANS usage for Interruption Communications by Transporters

British Gas is neutral to the change and supports the implementation of UNC Modification Proposal 0414S.

British Gas is neutral to the change and supports the proposal because -

1. No adverse industry impacts have been identified regarding the removing of the DNO obligations to maintaining the system for interruption notifications.
2. No requirement within British Gas to use the service in the near term has been identified. Further to this point British Gas is not currently using the service.

If you have any questions regarding the response from British Gas, please do not hesitate to contact me directly.

Kindest regards,

Andrew Margan
