Draft Modification Report

0422: Creating the permission to release data to Meter Asset Provider organisations

Consultation close out date: 08 February 2013
Respond to: enquiries@gasgovernance.co.uk
Organisation: British Gas Trading
Representative: Andrew Margan
Date of Representation: 08 February 2013

Do you support or oppose implementation?

Support

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

British Gas supports this proposal which will improve a MAPs ability to recover rental from gaining suppliers on churn and reduce the risk that lost asset cost is priced into contracts.

Are there any new or additional issues that you believe should be recorded in the Modification Report?

None identified

Relevant Objectives:

How would implementation of this modification impact the relevant objectives?

This change does not directly impact the UNC. The benefit is to the industry of more accurate charging for meter provision arrangements leading to lower metering charges overall.

Impacts and Costs:

What analysis, development and ongoing costs would you face if this modification were implemented?

None identified

Implementation:

What lead-time would you wish to see prior to this modification being implemented, and why?

No lead time prior to implementation.

Legal Text:

Are you satisfied that the legal text [and the proposed ACS (see www.gasgovernance.co.uk/proposedACS)] will deliver the intent of the modification?

British Gas is satisfied with both legal text and the ACS.

Is there anything further you wish to be taken into account?

Please provide any additional comments, supporting analysis, or other information that that you believe should be taken into account or you wish to emphasise.
