0430: Inclusion of data items relevant to smart metering into existing industry systems

Date referred from Panel: 19 July 2012

Background – Why Change?

Please refer to www.gasgovernance.co.uk/0430

Solution

It is proposed that the Transporters, in their role of holding centralised gas industry databases, will amend the central systems, known as UK Link, to capture and store the new data items and facilitate the transfer of this data as appropriate. Shippers will be obligated to provide data items which they will obtain from their suppliers.

Topics for Discussion

- Understanding the objective
- Assessment of alternative means to achieve objective
- Development of Solution (including business rules if appropriate)
- Assessment of potential impacts of the modification
- Assessment of implementation costs
- Assessment of legal text
- Assessment of triggers

Outputs

Produce a Workgroup Report for submission to the Modification Panel, containing the assessment and recommendations of the Workgroup.

Composition of Workgroup

The Workgroup is open to any party that wishes to attend or participate.

A Workgroup meeting will be quorate provided at least two Transporter and two User representatives are present.

Meeting Arrangements

Meetings will be administered by the Joint Office and conducted in accordance with the Code Administration Code of Practice.
