Draft Modification Report

0441: Continuation of Daily Metered (Voluntary) service until the implementation of Project Nexus

Consultation close out date: 07 June 2013
Respond to: enquiries@gasgovernance.co.uk
Organisation: DONG Energy Sales UK
Representative: Lorna Lewin
Date of Representation: 07 June 2013

Do you support or oppose implementation?

Support

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

Implementation of UNC modification 0345 removes the DMV (Daily Metered Voluntary) service from 1st April 2014 and these sites will either have the option to be reclassified as NDM or DME (Daily Metered Elective). DME regime is not a viable solution due to the deadlines for submitting daily readings. The changes required to make the DME regime a workable solution would not be cost effective as Project Nexus which is due to be implemented Q4 2015 would give the DME regime a limited duration.

Extending the DMV service will allow the existing DMV sites to remain daily settled rather than being settled on estimates, which provides accurate gas allocation costs. Extending the DMV service will also provide a seamless transition into the Project Nexus settlement products and is therefore a more efficient and cost effective solution.

Are there any new or additional issues that you believe should be recorded in the Modification Report?

No

Relevant Objectives:

How would implementation of this modification impact the relevant objectives?

As stated above, this modification will facilitate Relevant Objective d) by maintaining the current levels of daily settled sites until the implementation of Project Nexus. This is beneficial to all shippers as it leads to more accurate allocate of costs rather than being settled on estimates.

Impacts and Costs:

What analysis, development and ongoing costs would you face if this modification were implemented?

None

Implementation:

What lead-time would you wish to see prior to this modification being implemented, and why?

Immediately following decision

Legal Text:

Are you satisfied that the legal text [and the proposed ACS (see www.gasgovernance.co.uk/proposedACS)] will deliver the intent of the modification?

Yes

Is there anything further you wish to be taken into account?

Please provide any additional comments, supporting analysis, or other information that that you believe should be taken into account or you wish to emphasise.

No
