Draft Modification Report

0445 - Amendment to the arrangements for Daily Metered Supply Point Capacity

Consultation close out date: 18 July 2014

Respond to: enquiries@gasgovernance.co.uk

Organisation: British Gas Trading

Representative: Andrew Margan

Date of Representation: 05 July 2014

Do you support or oppose implementation?

Support

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

Following the approval of Modification 478, Modification 445 sets out arrangements for an enduring solution for capacity booking of Daily Metered Supply Points. We believe this change will improve the DM capacity booking by allowing shippers to book capacity, which more accurately reflects future demands, ensuring that more appropriate charges can be levied to shippers and customers and this will help facilitate effective competition between shippers.

Are there any new or additional issues that you believe should be recorded in the Modification Report?

No additional comments

Relevant Objectives:
How would implementation of this modification impact the relevant objectives?

This change should result in more accurate charging and therefore we believe that if will help facilitate relevant objective d) Securing of effective competition.

Impacts and Costs:
What analysis, development and ongoing costs would you face if this modification were implemented?

Minimal process change costs have been identified.

Implementation:
What lead-time would you wish to see prior to this modification being implemented, and why?

We believe implementation of this change will be linked to Project Nexus go-live.

Legal Text:
Are you satisfied that the legal text will deliver the intent of the modification?

We are satisfied

Is there anything further you wish to be taken into account?

Please provide any additional comments, supporting analysis, or other information that that you believe should be taken into account or you wish to emphasise.

No
