Draft Modification Report

0457S: Extending the use of the UK Link Network (Information Exchange (IX)) to Meter Asset Provider (MAP) organisations

Consultation close out date: 07 November 2013
Respond to: enquiries@gasgovernance.co.uk
Organisation: British Gas
Representative: Andrew Margan
Date of Representation: 06 November 2013

Do you support or oppose implementation?

Support

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

We support this proposal and believe that extending the use of the industry secure communication system (IX Equipment) to other relevant industry parties, is an efficient use of industry resource.

The change enables another secure method for Meter Asset Managers (MAM) to communicate with Meter Asset Providers (MAP) and better ensures efficient updates of asset details.

Are there any new or additional issues that you believe should be recorded in the Modification Report?

No

Self Governance Statement:

Do you agree with the Modification Panel's decision that this should be a self-governance modification?

Agree

Relevant Objectives:

How would implementation of this modification impact the relevant objectives?

We believe this modification will improve efficiency within the industry through better use of code communication equipment to communicate which will allow asset updates to asset providers.

Impacts and Costs:
