Do you support or oppose implementation?

Oppose

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

Faster switching will bring benefits mainly for domestic customers. However, the solution proposed within this modification to reduce the confirmation window from 7 business days to 2 business days will impact commercial arrangements with MAMs and may lead to inaccurate asset data due to the reduced window to confirm the correct asset details.

Are there any new or additional issues that you believe should be recorded in the Modification Report?
