Do you support or oppose implementation?

Support

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

Implementation of this modification will introduce increased granularity and transparency to the information provided to Shippers regarding the impact of AQ amendment activity which occurred within the AQ Review Process. As a consequence of this revised approach to reporting, the reports produced by Xoserve periodically during the AQ Review process and those presented at the AQ Operational Meeting should be more representative of the impact of AQ amendment activity by Shippers. The proposed changes to reporting will produce a more transparent picture of energy movements by LDZ and market sector when compared against the Current AQ and Provisional AQ.
