Do you support or oppose implementation?

Support

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

Xoserve's response to the Delivery Options for Nexus & EU Reforms indicated a high risk of non-delivery for both projects by October 2015. Decoupling these projects to deliver the EU Reforms by October 2015 and Nexus by April 2016 provides a lower risk of non-delivery and gives the industry more assurance of successful delivery. It is crucial that implementation of Project Nexus is accurate and successful to reduce any financial risks to the industry.

Are there any new or additional issues that you believe should be recorded in the Modification Report?
