#### Do you support or oppose implementation?

Support/Qualified Support/Neutral/Not in Support/Comments\* *delete as appropriate*

#### Please summarise (in one paragraph) the key reason(s) for your support/opposition.

We participate in “The Change Overview Board” and this group has collectively discussed the risks attached to the dual implementation of Project Nexus and the EU Network Code changes on 1 October 2015. We support the de-coupling of these projects as this will mitigate the risk of project failure and potential negative impacts for all industry participants. Implementing this change now, may also avoid costs associated with change that may be required at a future date.
