

Representation - Draft Modification Report 0504

Demand Side Response (DSR) Methodology Implementation

Responses invited by: **10 December 2015**

To: enquiries@gasgovernance.co.uk

Representative:	Charles Ruffell
Organisation:	RWE Supply & trading GmbH
Date of Representation:	10 th December 2015
Support or oppose implementation?	Support
Relevant Objective:	a) Positive b) Positive c) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

The DSR methodology that forms the basis for this modification proposal has itself been the subject of a separate development, consultation and approval process. We support implementation as this proposal will simply implement the approved DSR methodology into the UNC and meets National Grid's licence obligation SC 8I.

Implementation: *What lead-time do you wish to see prior to implementation and why?*

We agree with the implementation timetable suggested by the proposers. It is important to allow sufficient lead-time for the appropriate commercial and contractual framework between eligible end-users and shippers/suppliers to be established ahead of winter 2016/17.

Impacts and Costs: *What analysis, development and ongoing costs would you face?*

There may be some legal costs to develop contracts.

Legal Text: *Are you satisfied that the legal text will deliver the intent of the Solution?*

Yes.

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

None identified.

Please provide below any additional analysis or information to support your representation
