Do you support or oppose implementation? Support

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

It is important that outstanding reconciliation issues created prior to Nexus Go-Live should be resolved in a timely manner post Go-Live as this process is not a feature of the new arrangements. This modification enables the Transporter to step in and conclude the reconciliation activity in a reasonable timeframe where Users have failed to resolve and close them.

Are there any new or additional issues that you believe should be recorded in the Modification Report?

No

Self Governance Statement:

Yes

Relevant Objectives:

We agree that this facilitates efficient code arrangements and meets Objective F.

Impacts and Costs:

None

Implementation:

We support the proposed timescales set out in the modification.

Legal Text:
