Support or oppose implementation?	Support
Relevant Objective:	a) Positive b) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

npower are supportive of this change as it is imperative that gas transporters have the best information to hand when managing an emergency. This modification seeks to incentivise large gas customers to provide information to the gas transporters so that it can be used to manage emergencies and constraint management. There is currently no defined process in place for large gas customers to provide information to the transporter or for processing the information, this modification seeks to elevate that issue.

Self-Governance Statement: Please provide your views on the self-governance statement.

npower believe that this modification meets the self-governance criteria as it does not have an impact on consumers.
