

Representation - Draft Modification Report 0516S
Information provision by large
Customers to aid understanding of site characteristics

Responses invited by: 24 April 2015

Representative:	Rob Johnson
Organisation:	WINGAS UK Ltd
Date of Representation:	15 th April 2015
Support or oppose implementation?	Support
Relevant Objective:	a) Positive b) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

It is important that gas transporters have appropriate information regarding consumption patterns on their gas networks to assist in the planning for local and national emergencies. It is especially important for those sites with the largest loads as these will be approached by the networks first to reduce their loads during a demand side response activity in order to preserve domestic and vulnerable supplies. This modification will be of benefit to the networks to manage such circumstances and will incentivise large customers to provide up to date emergency contact information.

Self-Governance Statement: Please provide your views on the self-governance statement.

We agree that the modification meets the self-governance criteria due to the low impact of the modification on stakeholders.

Implementation: What lead-time do you wish to see prior to implementation and why?

WINGAS see no reason why implementation could not follow immediately after a decision to do so.

Impacts and Costs: What analysis, development and ongoing costs would you face?

We anticipate limited, if any costs for WINGAS UK Ltd should this be implemented.

Legal Text: Are you satisfied that the legal text will deliver the intent of the Solution?

Yes.

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

No

Please provide below any additional analysis or information to support your representation

N/A
