

Representation - Draft Modification Report 0518S

Shipper Verification of meter and address details following system meter removals

Responses invited by: **22 June 2015**

Representative:	Natasha Ranatunga
Organisation:	EDF Energy
Date of Representation:	22 June 2015
Support or oppose implementation?	Support
Relevant Objective:	d) Positive f) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

We agree that enhanced metering data quality is key to the change of Supplier process for customers. Implementation of UNC 0518S will provide Shipper Users with greater opportunity to improve the accuracy of meter details held in the Supply Point Register. It will also enable Shipper Users to minimise the number of erroneous transfers of shipperless sites.

Self-Governance Statement: Please provide your views on the self-governance statement.

We consider that UNC0518S, if implemented will not have a material impact on competition and consumers.

Implementation: What lead-time do you wish to see prior to implementation and why?

Once the revised Project Nexus Implementation Date has been agreed we believe that it is appropriate that the UNC 0518S implementation date is agreed and communicated following discussions at the Uniform Network Code Committee.

Impacts and Costs: What analysis, development and ongoing costs would you face?

None have been identified.

Legal Text: Are you satisfied that the legal text will deliver the intent of the Solution?

We are satisfied that the legal text will deliver the intent of the solution.

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

No

Please provide below any additional analysis or information to support your representation

N/A
