

Workgroup Terms of Reference

0519 - Harmonisation of Reference Conditions at Interconnection Points

Date referred from Panel: 20 November 2014

Background – Why Change?

Please refer to www.gasgovernance.co.uk/0519

Solution

It is proposed to facilitate compliance with requirements to implement harmonised reference conditions that are contained in the EU Network Code on Interoperability and Data Exchange Rules, and to adopt the use of such conditions for mandated processes at Interconnection Points (IPs) whilst allowing processes at other points to continue operating to the current GB reference conditions.

Topics for Discussion

- Understanding the objective
- Assessment of alternative means to achieve objective
- Development of Solution (including business rules if appropriate)
- Assessment of potential impacts of the modification
- Assessment of implementation costs
- Assessment of legal text
- The workgroup are to consider Self Governance status

Outputs

Produce a Workgroup Report for submission to the Modification Panel, containing the assessment and recommendations of the Workgroup.

Composition of Workgroup

The Workgroup is open to any party that wishes to attend or participate.

A Workgroup meeting will be quorate provided at least two Transporter and two User representatives are present.

Meeting Arrangements

Meetings will be administered by the Joint Office and conducted in accordance with the Code Administration Code of Practice.
