Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

We believe that Modification 479 introduced a number of improvements in the use of email as a communication method.   We support this additional modification in this area as is creates a much stronger structure for the use of email as a communication method and will help to ensure that communication between parties has been successfully achieved when email is used as the chosen method for communication.

A number of the communications that can be sent by email have a high level of importance and certainty is required that that they have reached their intended recipient, and that the correct course of action is taken by the sender when this certainty cannot be achieved.
