<b>Relevant Objective:</b>	f) Positive

**Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)**

RWE npower recognises that this modification is needed to ensure a smooth transition of settlement arrangements to Project Nexus. We do however hold some concern that the finer details in some areas are yet to be agreed by the workgroup. This modification will also be impacted by Modification 0532, Implementation of Non-Effective days which is yet to be agreed.

The Transitional business rules that support this modification state that there will be no AQ Amendments after August 2015. Therefore given the proposed change of Project Nexus Implementation Date it may appear sensible to delay this modification until clarity can be given within the rules for this and other issues.

To reduce the risk to the market we believe AQ validation should be agreed and included as part of the business rules contained in this modification.

**Implementation:** *What lead-time do you wish to see prior to implementation and why?*

To be implemented in line with Project Nexus.

**Impacts and Costs:** *What analysis, development and ongoing costs would you face?*

None identified.

**Legal Text:** *Are you satisfied that the legal text will deliver the intent of the Solution?*

Yes.

**Are there any errors or omissions in this Modification Report that you think should be taken into account?** *Include details of any impacts/costs to your organisation that are directly related to this.*

No.

**Please provide below any additional analysis or information to support your representation**

None.
