<b>Support or oppose implementation?</b>	Support
<b>Relevant Objective:</b>	f) Positive

**Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)**

RWE npower are supportive of this change as the current publication dates for the quarterly MOD186 pricing statements are misaligned with when final information is available, resulting in the need to explain variances between publications.

By changing the publication dates (and associated Transporter/Shipper meeting dates) it would result in fewer assumptions having to be made, resulting in less time needed explaining variations between assumed and actual costs.

**Self-Governance Statement: Please provide your views on the self-governance statement.**

RWE npower believes that the modification satisfy the Self-Governance Criteria

**Implementation: What lead-time do you wish to see prior to implementation and why?**

RWE npower would be able to adhere to the new time table at the next proposed solution date following approval.

**Impacts and Costs: What analysis, development and ongoing costs would you face?**

None identified

**Legal Text: Are you satisfied that the legal text will deliver the intent of the Solution?**

Yes

**Are there any errors or omissions in this Modification Report that you think should be taken into account?** *Include details of any impacts/costs to your organisation that are directly related to this.*

None

**Please provide below any additional analysis or information to support your representation**

None
