| Representative: | Karin Elmhirst |
| Organisation: | National Grid Transmission |
| Date of Representation: | 4 September 2015 |
| Support or oppose implementation? | Support |
| Relevant Charging Methodology Objective: | b) Positive |
| Relevant Objective: | f) Positive |

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

As proposer, National Grid NTS supports this modification as it updates UNC Section Y to reflect consistency, accuracy, relevant reference information and updates links to other documents that were found following an ad-hoc review of UNC Section Y. It has a non-material effect and has no impact on any other industry change.

Self-Governance Statement: Please provide your views on the self-governance statement.

This is a self-governance modification because it is unlikely to have material effect on gas consumers; competition, the operation of pipe-line systems, safety or security of supply, the uniform network code governance procedures or the network code modification procedures.

Implementation: What lead-time do you wish to see prior to implementation and why?

Sixteen business days after a Modification Panel decision to implement.

Impacts and Costs: What analysis, development and ongoing costs would you face?

None

Legal Text: Are you satisfied that the legal text will deliver the intent of the Solution?

Yes

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

No

Please provide below any additional analysis or information to support your representation

None
