<b>Representative:</b>	Colette Baldwin
<b>Organisation:</b>	E.ON
<b>Date of Representation:</b>	9 <sup>th</sup> September 2016
<b>Support or oppose implementation?</b>	Support
<b>Relevant Objective:</b>	d) Positive f) Positive

#### Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

The modification will facilitate the inclusion of more meter points in to the NDM Sample which will improve the overall sample and ensure that Demand Models and End User Categories are developed with a fully representative set of supply points within the sample sets. It will also be more efficient to have arrangements that do not require meter points to be excluded in the future when iGTs Supply Points are included in the central held data.

#### Self-Governance Statement: *Please provide your views on the self-governance statement.*

NDM sampling and the development of EUCs are not specifically related to competitive activities and are agnostic to market participants, they therefore cannot have a material impact on competition.

#### Implementation: *What lead-time do you wish to see prior to implementation and why?*

The modification will be only capable of being implemented when Project Nexus is implemented.

#### Impacts and Costs: *What analysis, development and ongoing costs would you face?*

None

**Legal Text:** *Are you satisfied that the legal text will deliver the intent of the Solution?*

Yes

**Are there any errors or omissions in this Modification Report that you think should be taken into account?** *Include details of any impacts/costs to your organisation that are directly related to this.*

None

**Please provide below any additional analysis or information to support your representation**

n/a
