

Xoserve / DNO Action to WG 0763R

At the July Workgroup on 0763R Xoserve/DNOs took the following action:

Action Table (as of 22 July 2021)						
Action Ref	Meeting Date	Minute Ref	Action	Reporting Month	Owner	Status Update
0701	22/07/21	2.1	Xoserve to provide All Transporters with a list of Bypass installations in central systems between May 2019 and 2021 for Transporters to provide a view next month on whether requests are being submitted to the Transporters.	August 2021	Xoserve / All Transporters	Pending

Response / Update:

- In relation to action 0701, Xoserve provided each DNO the MPRNs which had a meter by-pass installed (as recorded on UK Link) between May 2019 and May 2021.
- Each DNO undertook a check from their side to confirm if approval for the installation of the meter by-pass was requested and granted.
- Based on this check, DNOs found no record of approving by-pass installations for the sites recorded within UK Link as having a by-pass installed.
- Further to this, in certain cases, DNOs believed they have approved requests for by-pass installation which do not appear to be registered within UK Link as having a by-pass installed currently.
