31<sup>st</sup> May 2022

Dear Colleague,

**Invitation to participate in the July 2022  
NTS Exit (Flat) Capacity Annual Application Window**

Pursuant to Section B3.2.23 and Section B3.4.1 of the Transportation Principal Document (TPD) of the Uniform Network Code (UNC), National Grid Gas plc (“National Grid”) in its role as holder of the Gas Transportation Licence in respect of the National Transmission System (NTS) (the “Licence”) invites you to take part in the July 2022 Annual Application Window for NTS Exit (Flat) Capacity. A separate notice will be sent to the Distribution Network Operators (DNO) in addition to this, detailing information on the Offtake Capacity Statement process and the DNO adjustment window.

The Annual Application Window will be held using the Gemini Exit System and therefore all applications and reduction notices in respect of NTS Exit (Flat) Capacity will need to be entered in Gemini Exit by all Users including DNOs. For each NTS Exit Point (please refer to **Table One** and **Table Two** for details of valid NTS Exit Points) a capacity application (or reduction) may be created, withdrawn or modified in line with the windows detailed in sections 1, 2 or 4 below.

Users are advised to familiarise themselves with the relevant sections of the UNC, the Exit Capacity Release (ExCR) Methodology Statement v14.1 and the Exit Capacity Substitution and Revision Methodology Statement v8.1 which can be found at: <https://www.nationalgridgas.com/capacity/capacity-methodology-statements>

Please note Users will continue seeing the correct user commitment value for additional Enduring Annual NTS Exit (Flat) capacity bookings within baseline on the Gemini Exit system only after National Grid Gas Transmission has allocated the capacity. This is following the reduction of user commitment for such capacity from 48 to 24 months introduced last year.

Furthermore, please note that we are currently awaiting the Authority’s decision to approve the Exit Capacity (ExCR) Methodology Statement v14.1. Subject to approval, the user commitment period for additional Enduring Annual NTS Exit (Flat) incremental capacity bookings, where additional capacity is made available via substitution, will also be reduced from 48 to 24 months in this application window and the correct user commitment value will again be visible to Users on allocation. At the time of placing the booking, Users will still see the value related to the user commitment period of 4 years. We are expecting the Authority to make a decision by the end of June.

National Grid would like to highlight that any UNC modification proposals pending a decision from the Authority, or awaiting an implementation date, at the time of issuing this invitation letter may impact the process for July 2022 capacity applications and reduction notices. It is for all Users to determine for themselves, the impact of any UNC changes and any other changes to the Exit Capacity regime. Market participants can track and engage with live UNC changes and be aware of those awaiting Ofgem decision

via the Joint Office of Gas Transporters (<http://www.gasgovernance.co.uk/livemods> and <http://gasgovernance.co.uk/index.php/withofgem>).

Please note that the charges included in this notice are calculated based on current methodology, and are in line with the UNC at the time of writing.

The reserve prices for Enduring Annual NTS Exit (Flat) Capacity from October 2022 are published at: <https://www.gasgovernance.co.uk/ntscharges/2022>

## 1. Annual Applications

As specified in TPD Section B3.1.9 of the UNC, the Annual Application Window will be open, commencing at 08:00 BST and ending on 17:00 BST, on each Business Day in July.

Under TPD Section B3.4.2 of the UNC, Users may make capacity applications for Annual NTS Exit (Flat) Capacity for Gas Years commencing on 1<sup>st</sup> October 2022, 1<sup>st</sup> October 2023 and 1<sup>st</sup> October 2024 respectively.

In accordance with TPD Annex B-1 4.5 of the UNC, National Grid will inform each User which of its applications were accepted and the quantity of Annual NTS Exit (Flat) Capacity allocated on Gemini Exit by **12<sup>th</sup> August 2022**.

National Grid will, by 12<sup>th</sup> August 2022, publish on its website at <http://mip-prd-web.azurewebsites.net/ExitCapacityPublication/Index> the following information in respect of each NTS Exit Point for the Gas Years commencing 1<sup>st</sup> October 2022, 1<sup>st</sup> October 2023 and 1<sup>st</sup> October 2024;

- Aggregate volume of Annual NTS Exit (Flat) Capacity requested
- Aggregate volume of Annual NTS Exit (Flat) Capacity allocated
- Aggregate volume of Annual NTS Exit (Flat) Capacity unsold
- Total number of Users who submitted capacity requests
- Total number of Users who have submitted successful capacity requests

For information, the available Annual NTS Exit (Flat) Capacity for each relevant Gas Year in respect of each NTS Exit Point is shown in **Table One** in this invitation letter.

In accordance with the TPD Section B3.4.2(c) of the UNC, the quantity of unsold Annual NTS Exit (Flat) Capacity made available for a full year shall be the amount of Remaining Available NTS Exit (Flat) Capacity that is available for all Gas Days within that Gas Year.

## 2. Enduring Annual Applications

As specified in TPD Section B3.1.9 of the UNC, the Annual Application Window will be open, commencing at 08:00 BST and ending at 17:00 BST, on each Business Day in July 2022.

Users may apply for Enduring Annual NTS Exit (Flat) Capacity, for a start date of the 1<sup>st</sup> day of any month from 1<sup>st</sup> October 2025 onwards for those NTS Exit Points detailed in **Table Two** of this invitation letter.

Allocations of increase capacity applications for Enduring Annual NTS Exit (Flat) Capacity shall be in accordance with the ExCR and will be published to Users by no later than 30<sup>th</sup> September 2022 on Gemini Exit.

On the Business Day following the allocation of any capacity applications, National Grid will publish on its website at: <http://mip-prd-web.azurewebsites.net/ExitCapacityPublication/Index>, the following information in

respect of each NTS Exit Point for each of the Gas Years commencing 1<sup>st</sup> October 2025, 1<sup>st</sup> October 2026 and 1<sup>st</sup> October 2027;

- Aggregate volume of Enduring Annual NTS Exit (Flat) Capacity requested
- Aggregate volume of Enduring Annual NTS Exit (Flat) Capacity allocated
- Aggregate Quantity of Enduring Annual NTS Exit (Flat) Capacity sold in excess of the Baseline NTS Exit (Flat) Capacity
- Total number of Users who submitted capacity applications
- Total number of Users who have submitted successful capacity requests

### 3. Release of Incremental Obligated Exit Capacity

Incremental Obligated Exit Capacity may be requested through the Annual Application Window but will only be released at National Grid's discretion, and/or if the request can be fully satisfied through substitution.

### 4. Enduring Annual Reduction Notices

As specified in TPD Section B3.2.13 of the UNC, the annual reduction window will be open, commencing at 08:00 BST or later than 17:00 BST, on each Business Day between 1<sup>st</sup> July 2022 and 15<sup>th</sup> July 2022.

Where reductions have been received, and accepted, National Grid will notify each User of the date on which the reduction is to be effective and the updated amount of Enduring Annual NTS Exit (Flat) Capacity that User will continue to be registered as holding, by no later than 30<sup>th</sup> September 2022 on Gemini Exit.

In accordance with UNC TPD B3.2.22 and the ExCR, National Grid will, no later than twenty-four hours after, publish on its website at <http://mip-prd-web.azurewebsites.net/ExitCapacityPublication/Index>, the following information in respect of each NTS Exit Point for each month where a notice of reduction was received;

- Aggregate amount of Enduring Annual NTS Exit (Flat) Capacity for which Users gave notices of reduction
- Aggregate amount of Enduring Annual NTS Exit (Flat) Capacity which Users ceased to be registered as holding

### 5. General

National Grid has put this document together with due care and in good faith to generally summarise the relevant process in each case but this invitation is not intended to replace the more detailed provisions in UNC and the ExCR which Users should comply with. If there is any conflict between the provisions of the UNC and this invitation, the provisions of the UNC shall prevail.

Terms and expressions not otherwise defined in this letter shall have the meanings given to them in the UNC.

For additional information to support your application, please visit:

<https://www.nationalgridgas.com/capacity/exit-capacity> The page provides a short summary of the application process and in particular the different considerations for Enduring or Annual Exit (Flat) Capacity.

This letter will be sent by email via the Joint Office of Gas Transporters and posted on the National Grid Exit Capacity website at: <http://mip-prd-web.azurewebsites.net/ExitCapacityPublication/Index>

If you have any queries with regards to entry capacity, the auction mechanism, the Gemini system, or information provision then please do not hesitate to contact a member of the NTS Capacity Team on +44 (0)1926 654 057. Alternatively, you can email us at [capacityauctions@nationalgrid.com](mailto:capacityauctions@nationalgrid.com)

Yours faithfully,

NTS Capacity Team  
Gas Transmission
