NTSCMF Action 0701: Summary

Action 0701:

- National Grid to summarise the approximate changes to capacity charges in totality for LDZ offtakes (i.e. total per LDZ zone) under the prevailing arrangements and those with effect from 01 October 2020.

Summary:

- Total approximate charges per LDZ zone (payable by the GDNs) at the LDZs. Will consider only capacity-based charges.
- Uses October 2019 Exit Capacity charges and the published Exit Postage Stamp prices for October 2020, issued June 2020.
- Capacity data from the Long Term Summary Reports and FCC:
 - September 2019 LTSR for 2019/20 data, July 2020 LTSR for 2020/21 data
 - FCC data from those used in Setting October 2020 Postage Stamp prices
- Intended to provide an approximate view, that illustrates the potential scale of changes to Transportation charges to support any questions / comments to GDNs and their pricing forecasts
