

Retail Code Consolidation -

Impacts to UNC and IGT UNC as part of the RCC element of the Ofgem Switching Programme SCR

Impacts to the UNC and IGT UNC

- Limited impacts to the Codes for RCC
 - References to SPAA need to be removed from UNC TPD V5 and Sections K clauses 23 and 24 – Protected Information:
 - E.g. TRAS; ETTOS; MAM
 - Note: BEIS have recently inserted text in this section to require provision of Supplier data to the DCC – which would have otherwise been provided via the Data Permissions Matrix under UNC Modification 0697 and IGT UNC Modification 135.
 - Assessment is ongoing whether this should also be removed as part of this SCR.
 - Code Modification Rules
 - Amended to allow the REC Code Manager and RECCo to raise UNC and IGT UNC Modifications
