

UNC 0738:

Incremental NTS Entry Capacity Surrender

Proposer: Barrow Shipping
Panel Date: 15 October 2020

Why change?

- Prices were published for QSEC auctions
- Incremental capacity allocations based on those prices created user commitments
- Mod 0678A has retrospectively changed the prices and so increased user commitments

Options

- No alternative to a Modification has been identified

Solution

- One-off application opportunity
- NTS to have discretion to accept/reject applications
- If accepted, capacity holdings reduced

Recommended Steps

- The Proposer recommends that this modification should be:
 - Subject to self-governance
 - Workgroup assessment to develop the modification for a month
