

## UNC Modification Proposal 0715S

(Amendment of the Data Permission Matrix to add Electricity System Operator (ESO)  
as a new User type)

### Legal Text

#### Transportation Principal Document Section V

#### 5 INFORMATION AND CONFIDENTIALITY

#### 5.5 Exceptions

*Amend paragraph 5.5.3 as follows:*

5.5.3 Nothing in paragraph 5.1 shall apply to the disclosure by the Transporter of Protected Information:

- (o) to an electricity system operator, as the holder of an “**Electricity Transmission Licence**” (as defined in Section 6(b) in the Electricity Act 1989), to allow it to fulfil its licence obligations.

#### General – Defined Terms

*Insert new term as follows:*

Electricity Transmission Licence                      TPD V5.5.3(o)

*Drafting note: Currently the next available sub-section in 5.5.3 is sub-section (n). However, the text prepared for, and published in respect of, UNC Modification Proposal 0702 has used subsection (n). The text for this Proposal has therefore been written on the basis that Mod Proposal 0702 is directed for implementation. If Mod Proposal 0702 is not directed for implementation, sub-section (n) (rather than (o)) should be used in this Proposal.*
