Support or oppose implementation?	Support
Relevant Objective:	a) Positive

#### Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

The impact of COVID 19 has created uncertainty in gas demands for many of our members. As product demands have slowed, many member sites have suspended or reduced operations and energy demands have fallen significantly.

BCC supports this modification proposal as it will help reduce the fixed capacity charges for LDZ connected DM sites where their consumption has decreased as a result of the impact of the COVID 19 pandemic.

#### Implementation: What lead-time do you wish to see prior to implementation and why?

ASAP

#### Impacts and Costs: What analysis, development and ongoing costs would you face?

N/A

#### Legal Text: Are you satisfied that the legal text will deliver the intent of the Solution?

Yes

**Are there any errors or omissions in this Modification that you think should be taken into account?** *Include details of any impacts/costs to your organisation that are directly related to this.*

We support EIUG's comments for this question.

**Please provide below any additional analysis or information to support your representation**
