Request for clarification

14th December 2020 PAC Meeting

DDP 396 Clarification

- DDP 396 (AQ Corrections 2B.8) story states:

  "I want to see the number of AQ corrections that are rejected (T98) per reason code so I can monitor how many AQ corrections are being rejected by UKLink so that I understand the reasons why AQs are being rejected"

  - 'T98' is 'Notification of AQ Fail to calculate' code
  - 'C43' is 'AQ Correction Response' code

- We believe intended requirement is for AQ Corrections
- PAC to clarify
