

Performance Assurance Committee Meeting

Summary – 12th September 2023

KEY MESSAGES

▪ **AREAS OF PAC CONCERN**

- **Annual Review 2023:** The Performance Assurance Framework Administrator (PAFA) will be looking to issue the 2023 Performance Assurance Framework Document Annual Review out for consultation to the industry w/c 11th September 2023 with responses due by 30th October 2023.

The PAFA will also be running a virtual Annual Review event on 3rd October 2023, with invites to be circulated shortly.

- **0851R – PAFA Attendance at Workgroup:** PAC agreed for the PAFA to attend the Workgroups for [UNC Modification 0851R – Extending the Annually Read PC4 Supply Meter Point \(SMP\) read submission window](#) on their behalf.
- **Review of New Modifications:** PAC were made aware of four new modifications for consideration. PAC determined that one of these modifications had an impact on Performance Assurance;
 - [0836S – Resolution of Missing Messages following Central Switching Service Implementation and Integration with REC Change R0067](#) – To be monitored through the monthly risk review.
- **Shrinkage Model:** David Morley (OVO) attended PAC to discuss the inclusion of Shrinkage within the remit of the PAC. PAC discussed the matter extensively and voted against Shrinkage being explicitly included as part of PAC's remit and included within the PAC Terms of Reference. David Morley indicated his intention to include Shrinkage within PAC's remit through an UNC modification.

▪ **SHIPPER PERFORMANCE ANALYSIS**

- **Non-Respondents to PAC Requests:** PAC highlighted that there had been a good response to the recent Request for Information (RFI) request for Product Classes 3 and 4 for Meter Reading Submission from Industry. There was only one non-respondent who will be contacted via alternate contacts before the next PAC meeting.
