Amended Disclosure Request Report for the Disclosure of Protected Information to AlthANCo

Good afternoon,

Since Contract Management Committee's (CoMC) approval of the AlthANCo Disclosure Request Report (DRR) on 20th March, I have been in conversation with representatives from AlthANCo.

AlthANCo have added a new requirement to include the Meter Location Notes data item in the Xoserve to AlthANCo dataset; therefore, this data item would also need to be added to the AlthANCo column within the [Data Permissions Matrix](#).

Meter Location is present in the Xoserve to AlthANCo dataset; AlthANCo have informed me that Meter Location Notes will add additional clarity and context to the information provided within the Meter Location column of the dataset, and would thus support their analysis work.

The attached document is an amended AlthANCo Disclosure Request Report (I have only amended sections 2 and 11); on the 1st May, I intend to seek approval from CoMC of the following:

- The addition of Meter Location Notes to the Xoserve to AlthANCo dataset
- The addition of Meter Location Notes to the AlthANCo column within the Data Permissions Matrix

However, I am writing to you now to garner any review comments and considerations before the meeting on 1st May.

Kind regards,

Richard Johnson – Customer Change Lifecycle Coordinator
