Desktop investigation to determine bulk process

Possible outcomes following investigation

MPRNs will be set to EX if	Another Live MPRN exists on UK-Link with the same address (Domestic Sites Only)	OR	Another Live MPRN exists on UK-Link with an equivalent flat address (Flat 1 vs. Flat A)	OR	The site has been identified as a CSEP or IGT site	OR	The MPRN has a plot address and is <5years old
MPRNs will be set to DE if	It has been determined that the site has been demolished	OR	It has been determined that the service has been removed	OR	It has been determined that the service has been replaced		
No Action Required	It has been determined that the service exists but the meter has been removed or no meter was ever fitted	If a Nomination or Confirmation is received for the MPRN.					
Further action* will be deemed necessary if	It no conclusion can be drawn from investigations						

* Further action may include End User Letters; MRA Site Visits or Network Site Visits tbc

Shipper activity in the Legitimate population

- We ran the Legitimate MPRN's against
 - *The C&D store (asset updates)*
 - *Confirmation activity*
- In order to understand if any activity has occurred
- Current population 34,903 MPRN's, of which
 - *C&D store activity = 0.05%*
 - *Confirmation rejections = 0.4%*

- **A.O.B.**

Feedback gathering

- **Impacts upon your internal processes**
 - *Potential for procedural changes?*
 - *Timescale implications?*
- **Management of 'Speculative Connections'**
 - *Where a service is laid for an I&C development without an incumbent End-consumer (i.e. Units)*
- **Any general feedback regarding the change**
 - *Benefits?*
 - *Potential barriers to a successful roll-out?*

MPRN's set to DEad in error (Gazprom)

xserve

respect > commitment > teamwork

MPRN's set to DEad in error

- Raised due to implications on Shipper processes
 - *Creation/Confirmation of new MPR*
 - *Updating records*
 - *Interface with EndUser / MAMs etc.*
- Low volumes
- Samples provided to DN's for analysis
 - *Updates to be shared with Workgroup*
