

MODIFICATION 0794**OBLIGATION FOR DNOs TO CONTINUE PROVISION OF GAS COMPOSITION
INFORMATION TO NATIONAL GRID NTS****EXPLANATORY TABLE**

Reference	Explanation
11.1	National Grid NTS uses gas composition data provided the DNOs for the purposes of establishing the composition of emissions of gas from its compressors which, in turn, is used for the purposes of meeting its environmental obligations
11.2.1	To explain how the DNOs will calculate the percentage of gas components
11.2.2	To identify which DNO offtake will provide data for which NG compressor
11.2.3	To explain when data will be provided
11.2.4	To explain where the means by which data will be provided will be set out
11.3	DNOs will be entitled to their reasonable incremental costs of providing the data in accordance with the generic reimbursement terms of OAD L
11.4.1	The data will only be used by National Grid NTS to meet its environmental obligations
11.4.2	The DNO will notify National Grid NTS if it proposes to change the configuration of the equipment or systems used to provide the data, any planned outage of this or if the data is invalid and cannot be provided
