

Members Area: A password protected area, where Committee Members can view confidential documents relating to their committee.

An Increased Search Capacity: A refreshed search engine, which can be filtered via its content type.

Advanced Modification Search: Advanced search functionality including Type, Timeline, Status, Impact, and Live/Closed Modifications.

Live Notifications: Live Notifications can be requested and sent to your email address whenever the status of a Modification changes.

Status Fields: Modifications are now accompanied by a Status field, which indicates the lifecycle stage.

Modification Timeline: Each Modification is now accompanied by a Timeline, showing the key dates and current stage.
