The Workgroup Report is due to be presented at the UNC Modification Panel by 20 February 2020.

## 1.0 Introduction and Status Review

### 1.1. Approval of Minutes (17 December 2019)

The minutes of 17 December 2019 were accepted.

### 1.2. Review of outstanding actions

**Action 1201:** Joint Office to raise a ROM requesting what the implementation date would be. cc DA and ER in the request.

**Update:** This was completed, and the ROM has been received back from Xoserve. **Closed**

## 2.0 Amended Modification

The Modification has not been amended since the last meeting.

## 3.0 Consideration of Business Rules

AR showed onscreen the Legal Text provided for the meeting.

### Transitional text

*The current AUG Table which constitutes TPD E: Annex E-1 will be moved to new Section 24 of the Transitional Document: TDIIC – Transitional Rules. The Transitional Document will allow for the current table to continue to be used until the central system changes can be implemented by Xoserve in October 2021, and the updated AUG Table is published by the AUGE.*

### Legal text commentary

*The current AUG Table which constitutes TPD E: Annex E-1 will be replaced with a new table which includes the new End User Categories (EUC) introduced as part of Xoserve Change Proposal XRN4665, New EUC Profiles for Bands 01 and 02.*

RP suggested the period for which the existing table is used should be clarified in the commentary.

Workgroup concluded, 01 October 2020 the AUGE creates new table. The Shippers will use the appropriate table and the AUGE will be advised which table to use from Xoserve.

## 4.0 Review of Impacts and Costs

AR advised the Workgroup Report has been completed on the understanding that the Legal Text and the ROM will be included.

TS agreed she may need to submit a revised version of the Legal Text depending on when the timeline is finalised.

## 5.0 Development of Workgroup Report

SM advised that when this table was originally designed the fields within the table were flexible and configurable, additionally there is potentially some requirement for LDZ specific tables, which could prove to be an expensive change post implementation of this Modification. SM will discuss this further with CDSP.

AR showed onscreen the current draft of the change-marked Workgroup Report and provided an update on the changes made.

RC clarified she will check to see if this change is replicated in the IGT UNC. However, it was mentioned that the UNC automatically points to the IGT UNC.

KD confirmed it is her understanding that there is no IGT UNC impact.

It was clarified that this is quite a complex change and will require considerable testing, hence the proposed effective implementation date of 1 October 2021.

AR agreed a drafting change to the workgroup report to include a reference to “better cost reflectivity” in the relevant objectives section.

### Implementation section

Amendments to the Workgroup Report were made based on the Workgroup discussion regarding the rationale for the proposed implementation date.

## 6.0 Next Steps

AR will make amendments to the Workgroup Report and publish the final version ahead of UNC Panel meeting to be held 16 February 2020.
