The Workgroup Report is due to be presented at the UNC Modification Panel by 17 June 2021.

1.0 Introduction and Status Review

Rebecca Hailes (RH) welcomed all to the meeting.

1.1. Approval of minutes (01 April 2021)

The minutes from the previous meeting were approved.

1.2. Approval of Late Papers

RHa noted that the Legal Text had been re-published.

1.3. Review of outstanding actions

0401: National Grid and Xoserve to discuss the additional option combinations in order for the next version of the ROM.

Update: Anna Stankiewicz (ASt) anticipated costs in the region of £200-£250k and delivery timescales of 16-18 weeks and asked Hannah Reddy (HR) if this needed to be captured within a ROM. **Closed.**

2.0 Amended Modification / Development of Workgroup Report

The Workgroup considered the ability to conclude the Workgroup Report and provide this to the May UNC Modification Panel. It was anticipated the report could be concluded on the basis that the Legal Text would be fairly simple to review.

The Workgroup reviewed the Draft Workgroup Report and captured the Workgroup's assessment of the Modification. Richard Fairholme (RF) wished to note in the Workgroup Report that this Modification could reduce costs for generating and avoid overrun charges.

ASt provided an overview of the Legal Text. The Workgroup considered the bid process and if this was captured correctly within the provided Legal Text in relation to TPD Section B Annex B-1 paragraph 2.3.

ASt agreed to review and amend the text for Annex B-1 to enable the Workgroup Report to be finalised. Upon amendment the Workgroup agreed that Legal Text was in line with the solution and concluded the Workgroup Report.

3.0 Next Steps

RHa confirmed the next steps for this Workgroup will be to present the report to the May UNC Modification Panel.

4.0 Any Other Business

None.

5.0 Diary Planning

No further meeting planned.
